

SPECIAL RS

Customised Acoustic Doors

PRESENTATION

Acústica Integral, manufacturer of the **RS** acoustic doors, is able to adapt to its clients' requirements and to all kind of installations.

The R&D department carries out the design and manufacture of special models whether for their dimensions or their shapes and finishes.

ADVANTAGES

Maximum adaptability. Acoustic and aesthetic results.

APPLICATIONS

- Imitation wood finish.
- Special dimension doors.
- Adaptation to existing works structures. Frame and leaf rounded, inclined, etc.
- Glazed sliding acoustic doors.
- Doors with integrated ventilation louvers.
- Double doors with unequal leaves.
