RS Specials

Tailor-made acoustic doors

Acoustic doors with tailor-made viewers

Acoustic doors with rectangular viewer in special sizes.

Acoustic doors for emergency exits

Designed for one-way use. Fitted with a panic bar on the inside, without mechanisms on the outside.

Acoustic hinged doors with integrated ventilation

Hinged doors with integrated acoustic louvres. Specially designed for engine rooms and other enclosures with ventilation requirements.

Acoustic sliding doors with integrated ventilation

Sliding doors with integrated acoustic louvres. Specially designed for engine rooms and other enclosures with ventilation requirements.

NOTES

- We manufacture acoustic doors of any size (as long as it does not exceed what is structurally recommended).
- Any other non-standard door configuration must be validated and developed by our technical department.
- A drawing is sent for validation and approval by the customer prior to manufacture.
- For external access doors, the installation of sight viewers is not recommended, as condensation may occur on the inside of the glass.
